DETAILED ACTION

1. The newly added claims 21-23 are not considered because Ziegler-Natta catalyst is not encompassed by the organometallic complex of claim 1, thus, they do not share the same scope as the examined claims and those claims are directed to a different invention.

Claim Rejections - 35 USC § 112

- 2. The following is a quotation of the first paragraph of 35 U.S.C. 112:
 - The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 3. Claims 1-6 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The examiner cannot identify the full support for the amendments made in claims in the sections of the specification cited by the applicants. Thus, those amendments are new matters. However, the examiner is able to identify some of the support for the amendments, although the support is not in the sections as indicated. For example, the support for the amendment of claim 3 seems to be on page 9 and Example 1. In line 17 of page 9, while the spherical structures of DVB polymer (rather than any of the polymer having plurality of olefin groups as claimed) having particle sizes between 2 nm and 1000 microns is disclosed, there is no

Application/Control Number: 09/932,865

Art Unit: 1713

teaching regarding pore diameter of polymer material. In Example 1, 4V/A pore diameter of 104 A° for DVB polymer is taught. However, those disclosures do not provide full support for amended claim 3.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Caixia Lu whose telephone number is (571) 272-1106. The examiner can normally be reached from 9:00 am to 5:00 pm.

If attempts to reach the examiner by telephone are unsuccessful and the matter is urgent, the examiner's supervisor, David Wu, can be reached at (571) 272-1114. The
